DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 20-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hayes et al.(6,380,903) in view of Pankinaho(6,498,586).

Claims 20-21, figure 4 of Hayes discloses a planar ground plane(43), a radiating element(41), first connecting line(45) connected near the edge of the ground plane, and a second connecting line(44) as recited. While Hayes does not disclose the first connecting line coupled to the edge of the ground plane, figure 10 of Pankinaho does disclose such a connection for an improved connection to ground.

It would have been obvious to one of ordinary skill in the art at the time of the invention to use the ground plane connection location disclosed in Pankinaho with the antenna disclosed in Hayes for an improved ground plane connection.

Allowable Subject Matter

3. Claims 1-19 and 22-26 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter.

The following limitations are primarily responsible for distinguishing these claim over the prior art. Regarding claims 1-19 and 22-26, the limitation concerning a second connecting line coupled to the second edge at second and third contact locations as recited in independent claims 1, 22 and 25.

Response to Arguments

5. Applicant's arguments with respect to claims 20-21 have been considered but are moot in view of the new ground(s) of rejection.
